## SFT Process:

console table.

User Input: The living room's size is  $5m \times$ 6m. And this room contains an Lshaped fabric sofa with backrests and armrests, a square wooden coffee table with a glass top, a low

## High-level Semantic Description:

(1) The sofa and armchairs form a seating area for relaxation and conversation, centered around the coffee table. (2) The TV stand, bookcase, sideboard, and decorative console table provide storage and display functions, adding layers to the space. (3) Two floor lamps create soft lighting to enhance the overall comfort of the environment.

## Model Output:

Objects Description, Location, Rotation, Bounding box
